

Homework 24.09.2021

This week we are setting you a practical challenge! In school recently we have created our own globes using a balloon, a marker pen, cut outs of the continents and labels of the oceans.

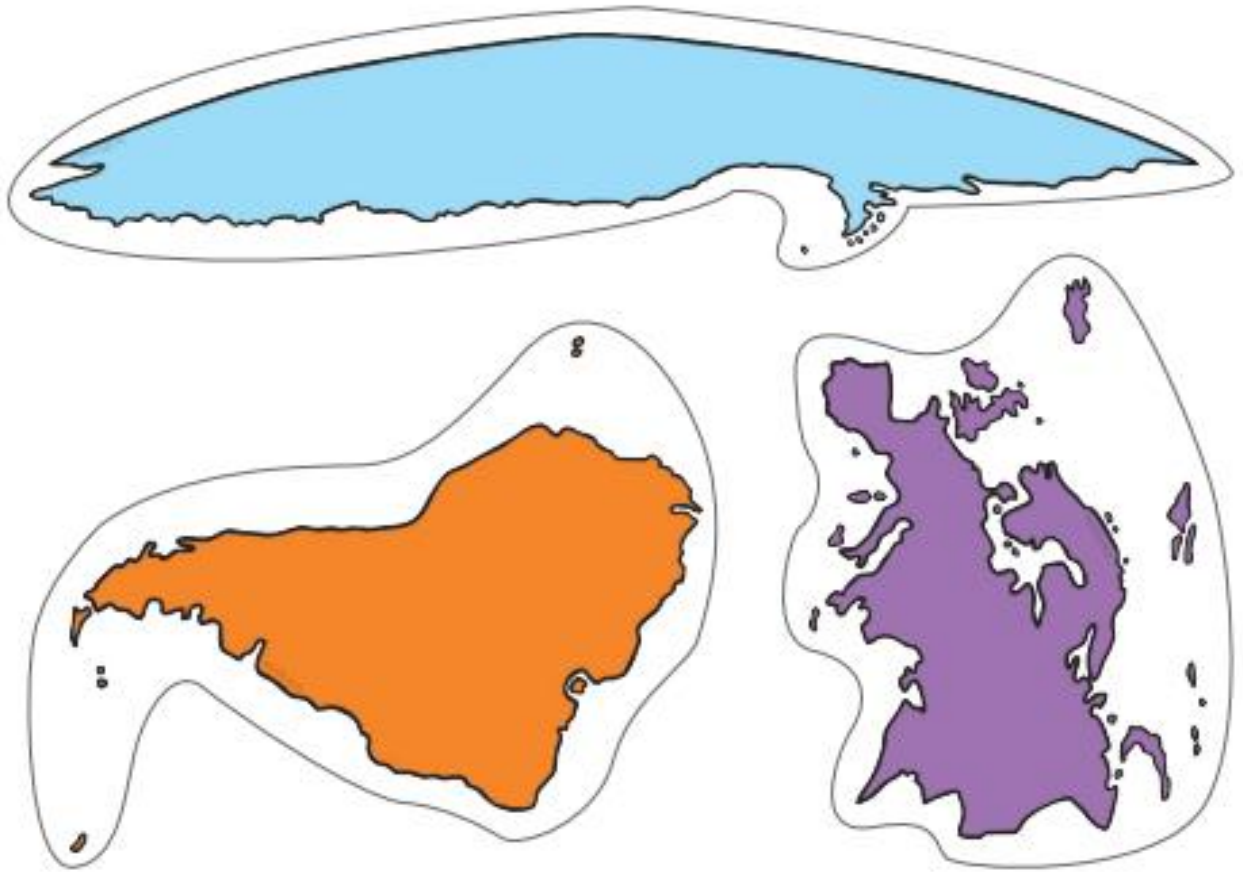

This week we are sending a balloon home with each child and would like you to make your own versions using this and the cut out continents and ocean labels. You will just need some glue or sellotape and a marker pen to mark on the equator. We would absolutely love to see any photos of the finished products. You can email us a photo to admin.bowmandale@northlincs.gov.uk

Please let us know if you require any further equipment to complete the task and we will do our best to help.

Have a great weekend
