Instructions

You **must not** use a calculator to answer any questions in this test.

Questions and answers

You have **40 minutes** to complete this test.

Follow the instructions for each question.

Work as quickly and as carefully as you can.

If you need to do working out, you can use the space around the question.
Do not write over any barcodes.

Some questions have a method box like this:

Show your method

The diagram shows a large rectangular grid with 20 columns and 10 rows. On the left side, there is a bracket-like shape containing the text 'Show your method'. In the bottom right corner of the grid, there is a smaller, empty rectangular box, approximately 6 columns wide and 2 rows high, intended for showing work.

For these questions, you may get a mark for showing your method.

If you cannot do a question, **go on to the next one.**
You can come back to it later, if you have time.

If you finish before the end, **go back and check your work.**

Marks

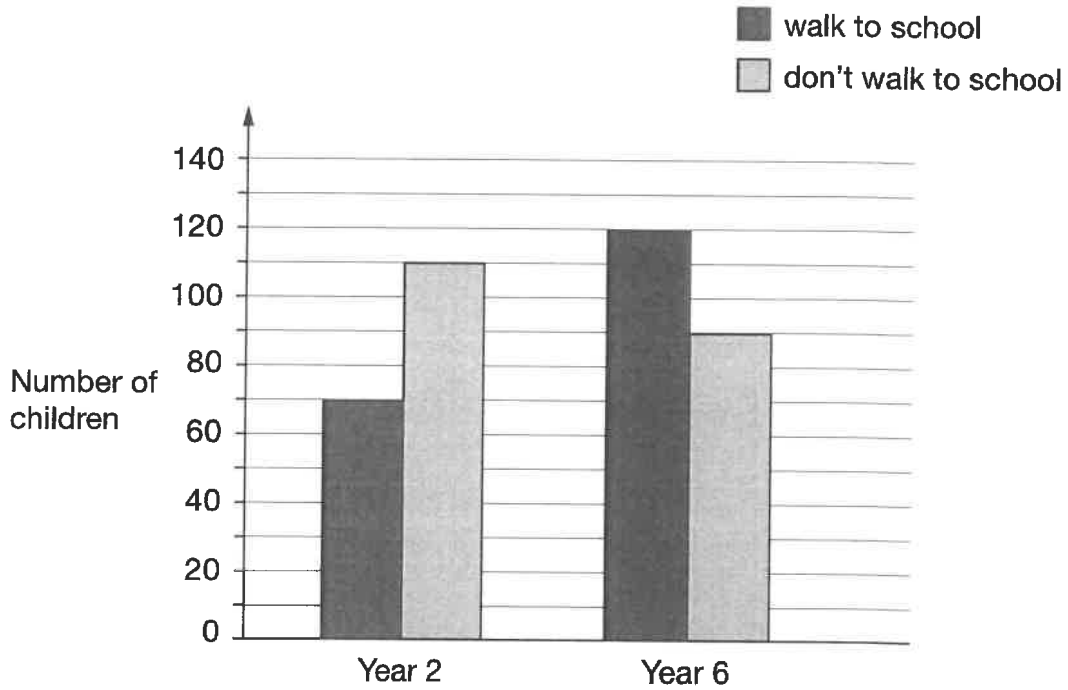

The number under each line at the side of the page tells you the maximum number of marks for each question.
