

Year 5 Homework - Maths - Friday 12th November 2021

Please complete the questions below using mental addition and mental subtraction. Use the methods we discussed in Maths this week to help you.

Mental addition

1). $1200 + 500 =$

2). $4200 + 1300 =$

3). $6400 + 1400 =$

4). $1100 + 1800 =$

5). $6870 + 2100 =$

6). $13101 + 3000 =$

7). $14140 + 17000 =$

8). $112320 + 200400 =$

9). $44935 + 8000 =$

10). $10750 + 4000 + 200 =$

11). $16340 + 2000 + 300 =$

12). $33564 + 10000 + 500 =$

13). $130138 + 17000 + 4000 =$

14). $125891 + 300000 + 9000 =$

→Challenge: Fill in the missing numbers

1). $40205 + \underline{\hspace{2cm}} = 56205$

2). $355434 + \underline{\hspace{2cm}} = 475434$

3). $24561 + \underline{\hspace{2cm}} = 31561$

4). $444575 + \underline{\hspace{2cm}} = 584575$

Mental subtraction

1). $2950 - 1000 =$

2). $1791 - 1500 =$

3). $2627 - 1100 =$

4). $6401 - 2100 =$

5). $7970 - 4050 =$

6). $5870 - 1600 =$

7). $19764 - 8400 =$

8). $56270 - 20060 =$

9). $145612 - 409 =$

10). $60451 - 2300 =$

11). $155305 - 100008 =$

12). $298940 - 70003 =$

13). $141511 - 23000 =$

14). $331577 - 280000 =$

→Challenge: Fill in the missing numbers

1). $12700 - \underline{\hspace{2cm}} = 8700$

2). $60070 - \underline{\hspace{2cm}} = 54070$

3). $464381 - \underline{\hspace{2cm}} = 456381$

4). $572454 - \underline{\hspace{2cm}} = 571744$

Year 5 Homework - Maths - Friday 12th November 2021

Please complete the questions below using mental addition and mental subtraction. Use the methods we discussed in Maths this week to help you.

Mental addition

1). $1200 + 500 = 1700$

2). $4200 + 1300 = 5500$

3). $6400 + 1400 = 7800$

4). $1100 + 1800 = 2900$

5). $6870 + 2100 = 8970$

6). $13101 + 3000 = 16101$

7). $14140 + 17000 = 31140$

8). $112320 + 200400 = 312720$

9). $44935 + 8000 = 52935$

10). $10750 + 4000 + 200 = 14950$

11). $16340 + 2000 + 300 = 18640$

12). $33564 + 10000 + 500 = 44064$

13). $130138 + 17000 + 4000 = 151138$

14). $125891 + 300000 + 9000 = 434891$

→Challenge: Fill in the missing numbers

1). $40205 + \underline{16,000} = 56205$

2). $355434 + \underline{120,000} = 475434$

3). $24561 + \underline{7000} = 31561$

4). $444575 + \underline{140,000} = 584575$

Mental subtraction

- 1). $2950 - 1000 = 1950$
- 2). $1791 - 1500 = 291$
- 3). $2627 - 1100 = 1527$
- 4). $6401 - 2100 = 4301$
- 5). $7970 - 4050 = 3920$
- 6). $5870 - 1600 = 4270$
- 7). $19764 - 8400 = 11364$
- 8). $56270 - 20060 = 36210$
- 9). $145612 - 409 = 145203$
- 10). $60451 - 2300 = 58151$
- 11). $155305 - 100008 = 15297$
- 12). $298940 - 70003 = 228937$
- 13). $141511 - 23000 = 118511$
- 14). $331577 - 280000 = 51577$

→Challenge: Fill in the missing numbers

- 1). $12700 - \underline{4000} = 8700$
- 2). $60070 - \underline{6000} = 54070$
- 3). $464381 - \underline{8000} = 456381$
- 4). $572454 - \underline{710} = 571744$
