

Year 2 Homework

18th March 2022

For homework we would like to focus on Science, as it has been British Science Week this week in school. Please complete the main task by reading and answering the questions. We have also included some simple science experiments that you may wish to try out at home. Let us know how you get on - we would love to see a photograph of the children completing their science experiments. Please send any photos to us via admin.bowmandale@northlincs.gov.uk

Have a lovely weekend

Mrs Dent, Mrs French and Miss Havercroft
