

Monday 15th June

Happy Monday! We hope you had a wonderful weekend and are rested and ready for the week ahead of you! As you will know, we would have been at PGL if things were different. We would like you to make sure you try something new this week and try to be active as much as you can! Maybe try some of your learning outdoors. Share any activities that you participate in on Twitter @BowmandalePS or @MissABrewster.

Reading

Can you find a different spot to enjoy your book in? It might be outside in the garden, it might be in the living room or maybe in a little den somewhere.

Maths

Can you complete the worksheet on angles?

Literacy

Can you read extract 1 and think about all of Willy Wonka's inventions that have been listed? Which one would you eat? Why?

Similar to character names, the names of the sweets give you a snap shot of what you will experience when you eat the sweets. Roald Dahl was the master at inventing names, can you think of any examples of sweets or chocolate that featured in the book or film? (An easy example would be the Wonka bar.)

Can you choose one of the inventions that's described and think of a name for it? Try to make your name sound appealing and exciting, maybe use alliteration or powerful adjectives.

Science

Following on from our celebration on World Ocean Day last week, can you watch the video and complete the worksheet? The video is all about how to save our high seas, Sir David Attenborough explains how we should all work together globally to ensure our oceans thrive!

If the worksheet is too long to complete today, complete it over the next few days or just choose the activities that interest you the most.
